Home Supply & Lumber

Hawthorne, NJ

Home Supply & Lumber Center has been a staple of Hawthorne and the surrounding communities for over 60 years, providing high quality lumber, decking, doors, windows, and interior/exterior hardware of all finishes. We are known for installing custom kitchens of top craftsmanship.

Because of demand for local, expert contract sourcing, we've gone from a small community lumber center to a full-source construction center.

Throughout our history, we've evolved our inventory to reflect the changes of the industry: updating styles and materials to suit the needs of the homeowners and contractors we're proud to call our clients. As the construction and decorating industries have evolved, we have expanded our inventories to include i-joists, laminated beams, dimensional lumber, plywood, sheetrock, insulation, and a large variety of mouldings and building materials.

As a contractor source, **Home Supply & Lumber Center** stocks, supplies, and supports home-owners and contractors with a huge local resource of:

- Decorative Decorator moulding
- Premium doors and window collections
- Interior and exterior hardware
- Hand tools, pneumatic nails and power tool accessories

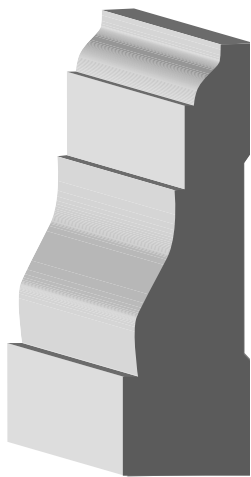

We have a friendly staff who can assist you in every facet of our business. Our workforce is committed to giving you the best service no matter what the size of your home or business project.

Visit our showroom, store, or yard for the best quality and service in the tristate area.

Solid Crown Mouldings

Crown Mouldings encapsulate a large family of mouldings which are designed to gracefully flare out to a finished top edge. Crown moulding is generally used for capping walls, pilasters, and cabinets, and is used extensively in the creation of interior and exterior cornice assemblies and door and window hoods. In recent times, crown mouldings have made thier appearance as mostly decorated plaster or wooden trim where walls meet ceilings.

24 MODERN FARMHOUSE

With a fresh take on rustic design elements, this style brings the down-home appeal of the simple life into modern times for a vibe that's inviting and memorable.

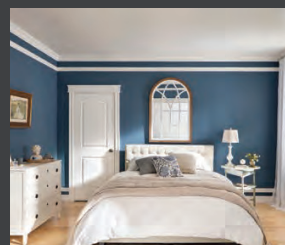

30 VINTAGE INDUSTRIAL

Inspired by factories from the past, this style features raw, exposed materials contrasting with mixed textures for dramatic, edgy spaces that are authentically cool.

36 NEW TRADITIONAL

Not too stark, not too heavy. Just right. This style combines classic and contemporary themes for a look that honors traditional design without losing sight of current trends.

42 SHABBY CHIC

Channel the romance of this style by creating cozy interiors with delicate, distressed décor. It's all about embracing imperfections and finding beauty in soft flourishes and timeworn elegance.
